

MACKLE

PETFOODS

40 Corrigan Hill Road,
Moy, Dungannon,
Co. Tyrone,
BT71 6SL

12 Week Technical Placement

You will work with the quality and technical department and will assist the Technical Manager to ensure that the BRCGS standard, legislative and customer requirements are met and always maintained, and records updated as and when required.

You will learn about the tracking of technical documentation and carryout of the quality measurements.

You are the future of our business

At Mackle Petfoods, our placements offer an opportunity for students to gain hands-on experience in a nurturing and professional environment.

Our placements are designed to provide you with a variety of skills and boost your knowledge in multiple departments within the business all tailored to your studies.

We take pride in our Petfood Family and the knowledge they have gained over years of experience makes them the perfect people to learn from. In your time as a placement student, you will be placed in teams with trained and skilled individuals to learn from our best!
